Ms. Maria Ruiz  
Nokia  
600 March Road  
Ottawa, ON K2K 2E6

Dear Ms. Ruiz,

I am writing to express my interest in the 7750/7250 Software Test Infra Student position for the Winter 2025 co-op term at Nokia, as advertised. Currently, I am pursuing a Computer Programming Diploma at Georgian College, and I am excited about the opportunity to apply my skills and learn in a dynamic environment that focuses on innovative routing products.

Through my academic training, I have developed a strong foundation in programming languages such as Python and Java, along with experience in Linux environments. I am familiar with scripting languages, including Bash and TCL, which I believe are essential for developing and maintaining infrastructure tools. My coursework in computer networking has equipped me with a solid understanding of the principles necessary for troubleshooting and resolving lab and test infrastructure issues effectively.

Additionally, I have hands-on experience with virtualization technologies and have worked on projects that involved database management using SQL. My projects have taught me the importance of collaboration and communication, as I frequently engaged with peers to define project requirements and deliver solutions that meet expectations.

I am particularly drawn to this position at Nokia because of the company's commitment to innovation and technology leadership. I am eager to contribute to your R&D community and gain practical experience in using industry-standard DevOps tools like Git, Nagios, Puppet, and Ansible.

Thank you for considering my application. I look forward to the opportunity to discuss how my background, skills, and enthusiasm align with the goals of your team. I am available for an interview at your convenience and can be reached at +1 2499 895 731 or [dniroula10@gmail.com](mailto:dniroula10@gmail.com).

**Sincerely,**  
**Diwash Niroula**
